

Defining Your Goals & Objectives

In this section you have learned about the meaning of a goal. This exercise is designed for you to think about appropriate goal/s for your grant. However, thinking ahead you might just envision what your objectives will be as well as your ultimate deliverables or outcomes. As you progress through the lesson, objectives and outcomes will be rewritten.

Goal: The purpose of your project or program.

Objectives: These are the methods you will use to accomplish your goal. They should be specific, measurable, achievable, realistic, and time bound.

Outcomes: What will you change and how will you know?

What is the purpose of your program?

How will you achieve the purpose of your program?

Grant Training Center

1901 N Fort Myer Drive
Suite 1016
Arlington, VA 22209

What will change once your proposal is implemented?

How will you know that substantive and important changes have taken place?
